EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Keiko Ichiye on 08/13/2007.

The application has been amended as follows:

Claims 11-15 are cancelled.

The examiner's amendment was made to correct lack of antecedent basis, the logic embodied in a medium, for the above claims.

Reasons for Allowance

2. Claims 1-10, 16 and 17 are allowed.
3. The following is an examiner's statement of reasons for allowance:

Claims 1, 6, 16 and 17 are allowable over the prior art of record since the cited reference taken individually or in combination fails to particularly disclose performing compression by receiving a previous flow at a decompressor, the previous packet flow associated with a context identifier, determining that a previous inactive time of the previous flow has exceeded an expiration period, establishing that the context identifier has expired, receiving a

compressed packet associated with the context identifier, the compressed packet received in the place of a full header packet corresponding to the context identifier, and establishing that the full header packet is lost in response to receiving the compressed packet.
